

ABSTRACT

Nera Wita(2316094) “The Effectiveness of Inside-Outside Circle Technique In Teaching Speaking At 10th Grade of SMKN 1 Baso.” Thesis. State Islamic Institute (IAIN) Bukittinggi

This research aimed to reveal the effectiveness of using Inside Outside Circle Technique in teaching speaking . Although the teacher had used inside-outside circle technique, the researcher found that there were several problems. The first Students were limited in vocabulary. The second, Students were not fluent in speaking. And the last, Some students speaking ability were still varied. Thus, the writer has done the research in SMKN 1 Baso to know whether the use of Inside Outside Circle Technique is effective or not toward students speaking ability.

This research was a descriptive quantitative. The populations of this research were 151 students of the tenth grade students of SMKN 1 Baso which consist of OTP 1, OTP2, AKL, PKM, TKJ, and TBSM. The researcher used purposive sampling to determine the sample because the researcher has some consideration to determine the samples. The researcher chose two of six classes as the sample. The sample in this research was 42 students. The technique of data collection in this research was documentation by collecting the students' speaking score after scoring by the teacher. To analyze the data collected, the researcher used table of frequency and percentage table of students' ability by calculated the mean, median, and modus. The researcher used rating scale to arrange the level of effectiveness.

The result of the research showed that the use of inside outside circle technique is effective in teaching speaking. It can be seen from the analysis data of research on students' speaking score that the use of inside outside circle technique. The percentage of the students is between 61-80 % with the mean score which was calculated is 78,59 with the rating quality is effective. It means the data proved that the inside outside circle technique is effective in teaching speaking at the tenth grade of SMKN 1 Baso

Keyword: Inside outside circle technique, teaching speaking.

ABSTRAK

Nera Wita (2316094) “Efektivitas Teknik Inside-Outside Circle Dalam Mengajar Berbicara Kelas X SMKN 1 Baso.” Skripsi. Institut Agama Islam Negeri (IAIN) Bukittinggi

Penelitian ini bertujuan untuk mengungkapkan keefektifan penggunaan Teknik Inside Outside Circle dalam mengajar Berbicara. Meskipun guru telah menggunakan teknik lingkaran dalam-luar, peneliti menemukan beberapa masalah. Siswa pertama terbatas dalam kosakata. Kedua, Siswa belum lancar berbicara. Dan yang terakhir, kemampuan berbicara beberapa siswa masih bervariasi. Oleh karena itu, penulis melakukan penelitian di SMKN 1 Baso untuk mengetahui apakah penggunaan Teknik Inside Outside Circle efektif atau tidak terhadap kemampuan berbicara siswa.

Penelitian ini merupakan penelitian deskriptif kuantitatif. Populasi dalam penelitian ini adalah siswa kelas X SMKN 1 Baso sebanyak 151 siswa yang terdiri dari OTP 1, OTP2, AKL, PKM, TKJ, dan TBSM. Peneliti menggunakan purposive sampling untuk menentukan sampel karena peneliti memiliki beberapa pertimbangan untuk menentukan sampel. Peneliti memilih dua dari enam kelas sebagai sampel. Sampel dalam penelitian ini adalah 42 siswa. Teknik pengumpulan data dalam penelitian ini adalah dokumentasi dengan mengumpulkan skor berbicara siswa setelah dinilai oleh guru. Untuk menganalisis data yang terkumpul, peneliti menggunakan tabel frekuensi dan tabel persentase kemampuan siswa dengan menghitung mean, median, dan modus. Peneliti menggunakan rating scale untuk menyusun tingkat keefektifannya.

Hasil penelitian menunjukkan bahwa penggunaan teknik inside outside circle efektif dalam pengajaran berbicara. Hal ini dapat dilihat dari data analisis penelitian skor berbicara siswa yang menggunakan teknik inside outside circle. Persentase siswa antara 61-80 % dengan rerata skor yang dihitung adalah 78,59 dengan kualitas penilaian efektif. Artinya data membuktikan bahwa teknik inside outside circle efektif dalam pengajaran berbicara di kelas sepuluh SMKN 1 Baso

Kata kunci: Teknik inside outside circle, pengajaran speaking
